

**ECOLINC PROFESSIONAL LEARNING DAY
'INVESTIGATING FROGS AT ECOLINC'
FRIDAY 5 SEPTEMBER 2008**

9.00am registration, tea & coffee, 9.30am start – 3.30pm

Ecolinc's storm water wetland provides habitat for at least four species of frog including the endangered Growling Grass Frog. This P-12 workshop will enable participants to explore the following activities; Frogs – Anatomy and Physiology, Identification, Conservation, Habitat Surveys, Constructing Frog Bogs and 'Something to Croak About' – assessment via board games and creative writing.

The workshop will be conducted at the DEECD award winning
**Ecolinc Science and Technology Innovations Centre
17 – 23 Labilliere Street, Bacchus Marsh 3340**

All participants will take an introductory tour of Ecolinc's wetland and then participate in each activity.

Total cost including morning tea, lunch, afternoon tea and a comprehensive curriculum kit including a teacher resource CD containing lesson plans for all activities is **\$55.00**.

Cheques should be made payable to
Bacchus Marsh College ABN: 189 276 982 90

To secure your place, please return completed registration form and full payment by Friday 29 August 2008.
